

CSWC Operational Period Summary

1800 June 27 2014 to 0600 June 28 2014

Cal OES Headquarters

SITUATION SUMMARY

Residential Burn Cathedral City, Riverside County (Updated)

Current:

- As of 0030 hours June 28, 2014 the fire has consumed the structure, all agencies demobilizing except Cathedral City FD which will have a Fire Watch for the night.
- The Cal OES Fire Assistant Chief has been released from the incident.

Situation:

- Cathedral City Fire Department, along with Federal and State Fire Agencies, will burn down a residence in Cathedral City tonight, 06/27/14. The residence is located within the Desert Gates Mobile Estates and was determined to contain bomb making materials. Approximately 63 residents were to be evacuated today and are expected to be allowed to return today, provided there are no complications.
- Per the Cal OES SDO, Riverside County will be forwarding a Local Disaster Proclamation from Cathedral City.
- The Cal OES Fire Duty Officer, Law Duty Officer, and Southern Region Duty Officer will continue to monitor the situation.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Building high pressure will result in warmer and drier weather through the weekend. The ridge of high pressure will strengthen on Monday resulting in hot temperatures inland early next week. A slight threat of thunderstorms exists early next week as weak disturbance passes over northern California.

San Francisco Weather:

Seasonable weather is forecasted for the start of the weekend then a warming trend Sunday and Monday as inland temperatures warm well into the 90s. A cooling trend back to more seasonable temperatures will develop by midweek as dry weather continues through the Fourth of July holiday.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Mainly dry weather for the next week, except a slight chance of thunderstorms along the northern mountains Tuesday /Wednesday. Quick warm up through the weekend with hot temperatures early next week, then modest cooling by late next week.

Hanford Weather:

High pressure will build over the region bringing a strong warming trend.

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Gusty northwest to north winds will affect portions of the region today. An upper high will bring warmer weather to the region this weekend with decreasing night through morning low clouds and fog. Temperatures will be above normal across much of southwestern California Monday through Independence Day.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure to the south will shift northward into next week. This will bring an inland warming trend and a shallower marine layer. The marine layer and weak onshore flow will keep coastal areas cooler. The onshore flow will bring locally gusty west winds to the mountains and deserts each late afternoon through late at night.

Southeast California Weather:

A warming trend will occur through the middle of next week under a strong ridge of high pressure. The hottest weather of the year so far is expected on Tuesday and Wednesday.

SITUATION SUMMARY

Significant Weather

- High pressure over the west coast will bring very warm temperatures this weekend. Even warmer temperatures are expected early next week as the high amplifies. By Monday and Tuesday, temperatures will run anywhere from 5 to 15 degrees above normal although at this time, record high temperatures are not expected. A slight threat of thunderstorms exists over the northern mountains on Tuesday as a weak weather system pivots through the northwest corner of the state.
- With summers arrival, though the state remains in the Phase I Alert condition of Seasonal Readiness, as outlined in the State Contingency Plan for Excessive Heat Emergency, State Agencies/Departments are advised to review existing plans, procedures and resources, to facilitate preparedness for and response to possible excessive heat events, and closely monitor the situation and inform Cal OES of any heat related issues or concerns.
- The California State Warning Center continues to monitor the weather statewide for heat or fire weather of concern and state power grid issues, and Cal OES Regions will remain in contact with Operational Areas (Counties) to monitor heat events which may impact local communities, facilities or agencies.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-3961**, On behalf of Fairfield Police Department, Solano County Sheriff is requesting one Human Remains Detection (HRD) K9 to assist in a 30 year cold case homicide. The Cal OES Law Duty Officer is coordinating resources.
- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
